FIG. 6

Figure 1 illustrates the development of a fish embryo from fertilization to hatching. The diagrams are arranged vertically and labeled with numbers 1 through 12. Each diagram shows a cross-section of the embryo, with various structures labeled with letters. The labels include: 1. Fertilized egg, 2. Cleavage, 3. Blastula, 4. Gastrula, 5. Somites, 6. Somites, 7. Somites, 8. Somites, 9. Somites, 10. Somites, 11. Somites, 12. Hatching. The diagrams show the progression from a single cell to a fully formed embryo with distinct somites and internal organs.
